

# SK & Associates

A R C U S

SK & Associates would like to introduce you to one of our newest manufacturers: **Arcus Lighting!** It is hard to believe they have been in business for over **120 years** and yet are new to the states.

At ARCUS, innovation and imagination are as highly valued as product reliability and quality. They continue to pursue new and better ways of engineering and designing to produce 21st century technology solutions while collaborating with customers around the world to ensure the best product for commercial, industrial and institutional applications.
