

SK & Associates

Introduces the newest addition to our offering:

EKLIPSE

ARCHITECTURAL
LIGHTING

NIXE FLEX

One of the slimmest linear on the market, measuring only 3/8 inch width, NIXE FLEX is a superior field-curvable linear that bears exactly the same light features and performances as its straight counterpart.

Available in 8 different increments from 1" to 8", thus offering a range of minimum radius curve respectively from 3° to 24° in order to fit perfectly into its environment such as curved wall, rounded bar counter, wide column, vaulted ceiling, dome.

[Fixture info](#)

MILI

MILI™ can be perfectly embedded in the retail furniture, such as display shelves, to be basically invisible to the observer. With its miniaturized dimensions and perfect

light distribution, **MILI™** revolutionizes shelf illumination.

MILI is held in place with magnets, all fixtures can be easily repositioned in the system when required.

Fixture info

NIXE

The NIXE recessed linear LED luminaire is one of the smallest on the market, measuring only 3/8 inch - barely the width of a fountain pen. It integrates its environment perfectly and seamlessly, without any apparent trims or edges. This benefits aesthetic as well as functional values, keeping the surface even and diffusing light without interruption.

Fixture info

PIXIS STEM

The mini LED spotlight has a magnetically assembled head which handles field-interchangeable optics of 18°, 24° and 41°. Completely independent from one another, each head can be fully rotated horizontally and allows for an 80° pivoting angle for maximum light control.

PIXIS™ STEM is designed to provide focus illumination in many merchandising applications. Compact in design but big in light it's ideal for application requiring small yet precise lighting solution.
