

SK & Associates

Experience the light™

Visionaire Lighting is proud to celebrate over a decade of bringing new outdoor lighting technology to the market place. Their plants are all vertically integrated

and include die casting, sand casting, metal spinning and fabrication as well as a state of the art powder coat paint facility. A new LED lab and SMT assembly area assure quality and timely production of all of our LED products. Their design and applications department utilizes cutting edge technology to provide our customers with the best complete engineering assistance when required.

Car dealership in California using the VLX fixture

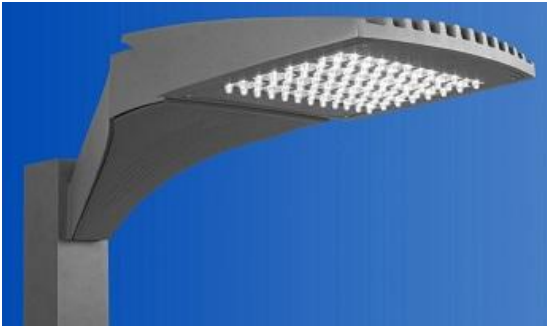

VLX

The VLX is part of their V-Collection and is a high performance architectural LED luminaire with the flexibility to be used in all outdoor lighting applications. Sleek design takes advantage of the low profile LED technology. Die cast aluminum construction provides years of reliable operation. Seven different IES light distribution patterns.
